

## WILSON READY TO TAKE STUMP

McCormick Goes to "Shadow Lawn" to Discuss Itinerary With President

STEP IS FORCED BY MR. HUGHES

Republican Candidate Has Touched a Vital Spot in Democratic Armor

New York, Sept. 20.—President Wilson has decided to abandon his campaign policy of dignified watchful waiting and take the stump.

This was announced yesterday afternoon by Vance McCormick, chairman of the Democratic national committee, before he left for Shadow Lawn to consult the president in regard to an itinerary. Mr. Wilson having just returned from the funeral of his sister in South Carolina.

"President Wilson will visit all the doubtful states before election," Mr. McCormick said. He declined, however, to say which states are regarded by the Democratic managers as doubtful.

The eight-hour law and the tariff, it is said, will be the chief topics with which the president will deal in his campaign speeches. Charles E. Hughes, the Republican candidate, has been hammering at these two issues in all his speeches, and his campaign managers say he has placed President Wilson squarely on the defensive.

The announcement that the president is to take the stump was received with smiles at Hughes' headquarters. Those in charge said it was evidence that the Republican candidate had reached a vital spot in the Democratic armor.

"Hughes has been making hay while Wilson has been sunning himself on the porch at Shadow Lawn," was the comment of one Republican leader. "Now the Democratic campaign managers, alarmed at the effectiveness of Hughes' campaign in the West, and realizing the necessity of doing something immediately to offset it, finally have prevailed upon the president to change his decision not to take the stump."

President Wilson, it is said, was not greatly concerned while the attacks of the Republican candidate were directed at him personally; but as soon as the eight-hour law and the tariff were raised as issues the situation was materially altered.

Mr. Wilson has taken the position that the American people would resent any attack upon him as president, and would show their resentment by supporting him at the polls. Since Mr. Hughes turned his batteries against the eight-hour law and the tariff, and has made these the two big issues in his campaign, President Wilson has turned a more attentive ear to the pleadings of his campaign advisers with the result that he at last consented to take the stump to reply to his Republican opponent.

## CHILD SUFFERED UNTOLD AGONY

With Rash on Arms and Limbs, Burned and Itched Horribly, Disfigurement Was Awful.

HEALED BY CUTICURA SOAP AND OINTMENT

"My son was affected with a rash which covered his arms and limbs and annoyed him very much. The breaking out was in blotches which would burst and bleed, and the child suffered untold agony. The skin was very sore and inflamed and burned and itched horribly. He was cross and irritable and slept very little. The disfigurement was awful. I read a Cuticura Soap and Ointment advertisement and sent for a free sample. I noticed an improvement so I purchased more and after using the Cuticura Soap and Ointment for three months my boy was healed." (Signed) Mrs. W. M. Mann, Box 32, Syracuse, N. Y., Sept. 24, 1915.

Sample Each Free by Mail

With 32-p. Skin Book on request. Address post-card "Cuticuras, Dept. T, Boston." Sold throughout the world.

## BASEBALL BRIEFS.

Jimmy Voix, infielder of the Pittsburgh Pirates, who was released last week to the Los Angeles team in the Pacific Coast league, announced Monday night on his arrival in Pittsburgh that he would quit the game before he would go to the coast to play. He recently bought a farm in Kentucky.

Thomas, a rookie on the Washington Americans, held the St. Louis Browns to a pair of hits, shutting them out by a score of 1 to 0 in Monday's contest. This is the first that the youngster has pitched for big league company. He hails from the Des Moines team.

Hal Chase beat the Brooklyn team in the second contest Monday, when he rapped out a double and triple in four times at bat, scoring both runs.

The Giants are playing some great baseball at the present time, and if they continue to play the ball that they have been exhibiting to the fans they may equal the record made by them in the earlier part of the season, when they piled up a record of 19 wins.

It was announced in Los Angeles last evening that Catcher Schmidt of the last year's Detroit team and manager of the Mobile club in the Southern association this season, had signed a contract to play with the Vernon team in the Pacific Coast league next season.

The Red Sox made a good start in their final series with the Tigers. It looks as though they might get something in the hunt in the jungle.

There is no other player in the annals of the game who has batted in the 300 class as many times as Hans Wagner. Wagner is rounding out his 18th year as a 300 hitter.

The Chicago Cubs are certainly having hard luck with their catchers, since they left for their final eastern invasion. Four of their catchers have been laid up. Catcher O'Farrell, who reported to Manager Tinker Monday, was hurt in Monday's game, splitting his finger from a foul tip in the second inning. The other catchers hurt on the trip are Archer, Wilson and Elliott.

More than 38,000 Chicago fans saw the Red Sox and White Sox play a crucial series.

## Football Notes.

To-morrow afternoon, the Tufts football squad will start training for the first game of the season at the stadium, when they meet Harvard. Prospects are very bright for a fast team, as very few of last year's veterans graduated.

Milton P. Ghee, Jr., is helping to whip the Dartmouth team into shape for the opening battle of the season. He is one of the Green's former star quarterbacks.

There will be no training camp for Foster Sanford's Rutgers team this fall, but a house has been obtained at New Brunswick, where it will possibly keep the players in strict training.

Sam Felton, who is coaching the punters at Harvard this fall, is having hard work to find a man to fill Mahan's place, although he thinks that he has good men in McElwaine, Thatcher, Murray and Horvath.

T. H. Campbell, at one time a Harvard star and for many years assistant coach of the Crimson, has taken charge of the University of North Carolina football squad.

Walter Camp is filling his old-time position as advisory coach and strategist of the Yale football squad.

The Yale bowl, where the Eli gridiron contests are held, has cost almost \$785,000 to the present time, and will cost at least \$150,000 in addition to the present investment before it will be completed, as was originally planned.

The early work of the Cornell team will be watched by the opponents of the Ithacans. Should the Red and White show any of the class of the champion 1915 team, the eastern colleges will work overtime in order to give these lakeside boys an argument.

## FOOTBALL NOTES.

Coach Brickley's Boston college football squad was increased to 40 in number by the appearance of new candidates on the field in Monday's practice. A 20-minute scrimmage was indulged in by the teams on the field, in which shift plays and forward passes were the feature. The drop kicking of Fitzpatrick, Fitzgerald and Trowbridge, who were given a chance in the backfield, showed great improvement.

Bowdoin had its first scrimmage of the season Monday when they met for 20 minutes of fast work under the charge of Coach Weatherhead. End runs, forward passes and punting were the plays in which the teams participated.

## HOGS STILL HIGHER.

Prices Pushed Up Another Fraction at Brighton Stockyards.  
Brighton, Mass., Sept. 20.—Hog prices were pushed up another fraction at the Brighton stock yards yesterday morning and values for the better grades of beef stock were well sustained, with a small supply.

Offerings of heavy beef cattle were much smaller than in recent weeks, nothing bringing over 7 1/2c, though tops would have brought 8 1/2c or a little more if they had been available. Good cattle were quoted at 7 1/2@8c and light cattle at 6 1/2@7c.

Best beef cows sold slowly at 6 1/2c for fancy, tops being quotable at 6@6 1/2c, with good cows at 5@6c, ordinary cows at 4@5c, and canners at 3 1/2@4c.

Bulls were in moderate offering, fancy being quotable at 6c, though most of the better offerings went at 5@5 1/2c. Ordinary bulls sold at 4 1/2@5c, and bolognas at 4@4 1/2c.

No particular change was noted in the market for calves. Fancy small lots went up to 10 1/2@11c, with the best bunch lots at 9 1/2@10c. Fair lots sold at 8 1/2@9 1/2c, and grassers and drinkers at 6@7 1/2c.

Hogs have been advanced again, both for live and dressed. Best lots of live sold at the yards yesterday morning at 11 1/2@11 40c, with some shippers asking 11 1/2c. Rough lots sold on the basis of 10 1/2@11c.

Sheep and lambs were in small supply, and prices were nominally unchanged at 6@7 1/2c for sheep and 9@9 1/2c for best lambs.

Drovers report a good demand for their best milk cows, but ordinary milkers are dull and draggy. Fancy milkers sell at \$75@80, and occasionally more, with good milkers at \$60@65 and ordinary milkers at \$45@50.

## 1916 APPLE PRODUCTION

Estimate Is 67,679,000 Barrels of Three Bushels Each.

The Sept. 1 forecast of total apple production this year in the United States as reported by the bureau of crop estimates, U. S. department of agriculture, is 67,679,000 barrels of three bushels each (agricultural and not commercial basis), as compared with 76,670,000 estimated produced last year, of which not quite 65 per cent were sold. In the past 10 years estimated production has exceeded the present forecast five times. Taking the country as a whole, it thus appears that the apple crop will be nearly an average, but 12 per cent smaller than last year's large crop. The crop is larger than last year in the Atlantic coast states, including New York and Pennsylvania, and in the Pacific coast states, but smaller in practically all the interior states except Michigan, which has about 34 per cent more than last year. For the first time this year an attempt has been made to forecast the crop by important varieties.

The following estimates are based upon reports from special lists of apple correspondents to the bureau of crop estimates:

Baldwin appears to be the leading crop this year, with a forecast of 9,302,000 barrels, an increase of 12 per cent over last year's production. New York forecast is 3,841,000 barrels, an increase of 42 per cent over the estimated production last year; Pennsylvania, 935,000 barrels, an increase of 6 per cent; Massachusetts, 672,000 barrels, an increase of 16 per cent; Ohio, 566,000, a decrease of 31 per

cent; Michigan, 561,000, an increase of 39 per cent; Maine 469,000, an increase of 108 per cent; all other states 2,200,000, a decrease of 6 per cent.

Ben Davis, which was the leading variety as to quantity last year, falls to second this year, with a forecast production of 9,245,000 barrels, which is 17 per cent less than the production estimated last year. In Missouri, which leads in the production of this variety, the present forecast is 1,000,000 barrels, a decrease of 41 per cent from last year. New York forecasts a production of 865,000 barrels, an increase of 61 per cent; West Virginia 837,000, an increase of 18 per cent; Virginia 766,000, an increase of 33 per cent; Illinois 642,000, a decrease of 52 per cent; Kentucky 547,000, a decrease of 33 per cent; Ohio 504,000, a decrease of 30 per cent; Pennsylvania 410,000, an increase of 28 per cent; Arkansas 395,000, an increase of 2 per cent; Indiana 393,000, a decrease of 51 per cent; all other states 2,826,000, a decrease of 9 per cent.

The Winesap forecasts a production of 3,704,000 barrels, a decrease of 32 per cent from last year. The Virginia forecast is 911,000 barrels, a decrease of 27 per cent; Kentucky 502,000, a decrease of 45 per cent; Tennessee 242,000, about the same; Missouri 181,000, a decrease of 50 per cent; North Carolina 178,000, an increase of 9 per cent; Illinois 158,000, a decrease of 56 per cent; Indiana 155,000, a decrease of 63 per cent; Kansas 152,000, a decrease of 52 per cent; Arkansas 109,000, a decrease of 11 per cent; all other states 1,204,000, a decrease of 9 per cent.

Greening forecast is 3,739,000 barrels, an increase of 4 per cent over the estimated production last year. In New York the forecast is 1,704,000 barrels, an increase of 2 per cent; Pennsylvania 546,000, an increase of 34 per cent; Michigan 258,000, an increase of 8 per cent; Vermont 206,000, an increase of 296 per cent; Ohio 144,000, a decrease of 46 per cent; Iowa 81,000, a decrease of 53 per cent; all other states 740,000, an increase of 2 per cent.

Northern Spy forecast is 3,602,000 barrels, an increase of 25 per cent over last year's estimated production. In New York the forecast is 1,225,000 barrels, an increase of 61 per cent; Michigan, 711,000, an increase of 43 per cent; Pennsylvania 619,000, an increase of 10 per cent; Vermont 186,000, an increase of 162 per cent; West Virginia 177,000, an increase of 113 per cent; Ohio 149,000, a decrease of 50 per cent; Indiana, 42,000, a decrease of 64 per cent; all other states 493,000, an increase of 1 per cent.

The Wealthy forecasts a production of 2,863,000 barrels, a decrease of 13 per cent from last year's crop. Michigan forecasts a production of 495,000 barrels, an increase of 33 per cent over last year's estimated production; New York 389,000, an increase of 57 per cent; Iowa 290,000, a decrease of 48 per cent; Wisconsin 218,000, a decrease of 43 per cent; Pennsylvania 177,000, an increase of 39 per cent; Minnesota 140,000, an increase of 1 per cent; Ohio 124,000, a decrease of 17 per cent; Illinois 83,000, a decrease of 63 per cent; all other states 948,000, a decrease of 13 per cent.

The Rome Beauty, with a forecast of 2,770,000 barrels, is 21 per cent short of last year's estimated production. West Virginia forecasts a production of 572,000 barrels, an increase of 27 per cent for that state; Ohio 548,000, a decrease of 38 per cent; Kentucky 197,000, a decrease of 35 per cent; Indiana 146,000, a decrease of 39 per cent; Tennessee 66,000, an increase of 8 per cent; North Carolina 63,000, an increase of 35 per cent; Pennsylvania 92,000, an increase of 14 per cent; Missouri 76,000, a decrease of 57 per cent; Illinois 71,000, a decrease of 60 per cent; all other states 798,000, a decrease of 1 per cent.

The Jonathan variety forecasts a production of only 2,432,000 barrels, which is a reduction of 46 per cent from the estimated crop of last year—and this notwithstanding a material increase in the Pacific Northwest. The Missouri forecast is 303,000 barrels, a decrease of 64 per cent from last year's estimated production; Kansas 197,000, a decrease of 69 per cent; Illinois 136,000, a decrease of 76 per cent; Iowa 129,000, a decrease of 65 per cent; New York 105,000, an increase of 24 per cent; Ohio 96,000, a decrease of 53 per cent; Indiana 56,000, a decrease of 69 per cent; Nebraska 62,000, a decrease of 69 per cent; all other states 1,348,000, a decrease of 5 per cent.

The York Imperial forecasts a production of 2,403,000 barrels, which is 2 per cent less than last year's estimated production. Virginia forecasts a production of 778,000 barrels, an increase of 32 per cent over last year; Pennsylvania 365,000, an increase of 18 per cent; West Virginia 287,000, an increase of 66 per cent; Maryland 237,000, an increase of 59 per cent; North Carolina 92,000, an increase of 33 per cent; Ohio 94,000, a decrease of 40 per cent; Indiana 83,000, a decrease of 57 per cent; Missouri 86,000, a decrease of 54 per cent; Iowa 50,000, a decrease of 57 per cent; Illinois 47,000, a decrease of 58 per cent; all other states 274,000, a decrease of 21 per cent.

Grimes Golden forecasts a production of 2,050,000 barrels, a reduction of 30 per cent from last year's crop. Ohio forecasts a production of 264,000 barrels, a reduction of 29 per cent; West Virginia 212,000 barrels, an increase of 10 per cent; Indiana 182,000, a decrease of 49 per cent; Pennsylvania 167,000, an increase of 22 per cent; Missouri 148,000, a decrease of 58 per cent; Illinois 106,000, a decrease of 59 per cent; Virginia 106,000, an increase of 15 per cent; Arkansas 106,000, a decrease of 9 per cent; Kentucky 79,000, a decrease of 46 per cent; Iowa 70,000, a decrease of 43 per cent; Kansas 88,000, a decrease of 54 per cent; all other states 542,000, a decrease of 11 per cent.

Oldenburg variety forecasts a production of 2,001,000 barrels, which is 8 per cent less than last year's crop. Michigan forecasts 505,000 barrels, an increase of 30 per cent; New York 395,000, an increase of 144 per cent; Iowa 218,000, a decrease of 47 per cent; Wisconsin 195,000, a decrease of 39 per cent; Pennsylvania 140,000, an increase of 52 per cent; Illinois 60,000, a decrease of 68 per cent; Ohio 53,000, a decrease of 51 per cent; all other states 435,000 barrels, a decrease of 16 per cent.

Stayman Winesap forecasts a production of 1,318,000 barrels, a reduction of 13 per cent from last year's crop. Tennessee forecasts 363,000 barrels, an increase of 3 per cent; North Carolina 237,000, an increase of 10 per cent; Virginia 223,000, an increase of 38 per cent; Kentucky 162,000, a decrease of 29 per cent; Georgia 14,000, a decrease of 36 per cent; Arkansas

as 73,000, an increase of 46 per cent; Missouri 56,000, a decrease of 64 per cent; all other states 199,000 barrels, a decrease of 38 per cent.

The Yellow Newton (Pippin) forecasts a production of 1,277,000 barrels, which is 4 per cent less than last year's crop. Virginia forecasts a production of 383,000 barrels, a decrease of 14 per cent; New York 78,000, a decrease of 17 per cent; Washington, Oregon and California (combined) 648,000, an increase of 22 per cent; all other states 232,000, a decrease of 24 per cent.

Tompkins King forecasts a production of 1,174,000 barrels, an increase of 20 per cent over last year. New York forecasts a production of 446,000 barrels, an increase of 31 per cent; Pennsylvania 140,000, an increase of 22 per cent; Michigan 133,000, an increase of 36 per cent; Maine 47,000, an increase of 114 per cent; all other states 399,000 barrels, an increase of 2 per cent.

Wagoner forecasts a production of 1,020,000 barrels, an increase of 24 per cent over last year. Michigan forecasts 244,000 barrels, an increase of 39 per cent; Pennsylvania 241,000, an increase of 43 per cent; New York 168,000, an increase of 65 per cent; Ohio 38,000, a decrease of 51 per cent; all other states 329,000 barrels, an increase of 10 per cent.

McIntosh forecasts a production of 1,012,000 barrels, an increase of 31 per cent over last year. New York forecasts 357,000 barrels, an increase of 55 per cent; Maine, New Hampshire, Vermont and Massachusetts combined, 194,000 barrels, an increase of 109 per cent; all other states 461,000 barrels, an increase of 2 per cent.

Fameuse (Snow) forecasts a production of 1,005,000 barrels, an increase of 1 per cent. New York forecasts a production of 354,000 barrels, an increase of 98 per cent; Michigan 119,000, a decrease of 6 per cent; Vermont 113,000, an increase of 146 per cent; Iowa 72,000, a decrease of 44 per cent; Maine 54,000, an increase of 100 per cent; Wisconsin 50,000, a decrease of 55 per cent; Ohio 25,000, a decrease of 58 per cent; Pennsylvania 25,000, an increase of 67 per cent; Illinois 22,000, a decrease of 77 per cent; all other states 171,000, a decrease of 19 per cent.

Of the other varieties, Golden Russet forecasts a production of 1,002,000, an increase of 14 per cent over last year; Yellow Bellflower 766,000 barrels, a decrease of 18 per cent; Gravenstein 733,000, an increase of 10 per cent; all other varieties, unclassified, 11,316,000 barrels, a decrease of 13 per cent.

## United States 'balanced' Tires

Again and Again and Again

We might give our tires away—but if they didn't "make good," even free tires would not be put on a car a second time.

The gigantic sales increases of United States Tires plainly prove that a vast and growing army of automobile owners know how to pay less by buying the best tires.

There are five United States 'Balanced' Tires which meet every motoring condition of price and use.

Ask the nearest United States Tire Dealer for your copy of the booklet, "Judging Tires," which tells how to secure the exact tire to suit your needs.
